

COVID-19

Pandemic in India!

DAY 2: DIY – Task/Assignment

Create i-python notebook file with detailed markdown and complete the following tasks:

- Research about the recent cases of COVID-19 in India and Iran
- Read news every day, collect the data and update the dataset till next week
- Find the total number of COVID-19 cases in India till date
- Which state is the most recent with COVID-19 case?
- What is the total number of active COVID-19 cases in India?
- Create multiple visualization and compare the spread of COVID-19 in India with Iran
- Use Prophet to forecast the data for next 10 days with 97% confidence interval
- Write down your inference after plotting the visualization. Tell us if trend of COVID-19 in India is similar to Iran.
- Write down a theory to justify your inference.
